

Quality Policy

Paul Mulcair UK Ltd, provides civil engineering services including but not limited to Highways and Smart Motorway Projects throughout the UK.

Paul Mulcair UK Ltd Quality Management Systems is an integral part of our everyday business activities and our company goal is to achieve quality excellence and to exceed our clients' expectations in all our activities, making us a partner that clients repeatedly want to work with. We believe in delivering quality excellence by building trust, ensuring peace of mind and value for our clients.

We believe that quality excellence is achieved through personal efforts of every employee in the company who strive for superior quality through the elimination of errors and minimization of waste.

With over 25 years of experience, and knowledge, our highly dedicated and competent staff are committed to ensuring that all projects consistently conform to our client's specifications, safety regulations and Quality Standards.

Paul Mulcair UK Ltd, takes great pride in the professional quality of our work and are committed to maintaining our certification to ISO 9001, complying with applicable statutory/regulatory and client requirements, setting and reviewing our quality objectives as part of our management review system and continually improving the effectiveness of our Quality Management System.

Paul Mulcair UK Ltd, maintain our Quality Policy as documented information and it is available to all employees and interested parties on request from our Quality Manager. The suitability and adequacy of our Quality Policy is reviewed annually by our Management Team as part of our management review meeting.
